The Northwest Regional Telehealth Resource Center

Telehealth Access Point (TAP) Mapping

- Public space with connection, device and privacy considerations
- May also have support staff
- Scalable at many levels
- Scan the code below to submit a TAP!

TOOLKITS

Digital Navigation Toolkit

BY NCTRC STAFF • AUGUST 8, 2023

Digital Health Navigators are individuals who address the whole digital inclusion process — connectivity, devices, and digital skills — to support community members and provide access to healthcare. This toolkit provides helpful resource links relating to digital navigation.
